

Dear Apogee Family,

We truly hope you are well and safe. Now that we are approaching the end of the shelter-in-place order, we want to encourage you to finish strong in your motivation to keep up your fitness aspirations at home!

Like many states and businesses, we are doing our best to stay informed of new developments as they happen. Our governor has extended the stay-at-home order through May. With that being said, we will now be opening June 1st. Also, billing will remain suspended through May. We can't wait to see you guys back in the clubs and enjoying getting fit!

Our maintenance team has been working every day during our temporary closure. We've been practicing our new diligent daily cleaning regimen to ensure you come back to an exceptionally clean club that have been sanitized and disinfected. We look forward to continuing that level of care once we are back open as well. ***We have also implemented personal towel service and have added individual sanitizer spray for each member to use while working out upon your return.***

Follow us on Facebook and Instagram for FREE workouts!

We can't wait to see you at the club June 1st! Stay safe and healthy!

In good health,
Apogee Fitness
